

Press Release

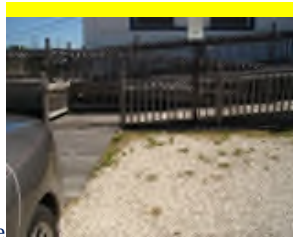

June 19, 2007

Installation of the **fourth** automatic door opener at the American Legion in Tequesta! This donation is in Celebration of **Independence** Day, July 4th and to recognize the newly paved parking lot at the American Legion! Actual Installation on July 3rd.

The door opening device will be was donated by Nabco Entrances, Inc., based in Muskego, Wisconsin. Installation will be donated by Direct Doors, Inc. based in West Palm Beach, FL. Sixberrys, Inc. Locksmith in Jupiter, has donated and installed a beautiful new door handle and dead bolt.

Before

After

E - Quality of Life Foundation is a newly formed, non-profit organization based in Jupiter, FL would like to thank all parties for their generous participation in this installation!

These events are significant since 18% of the population in Palm Beach County alone, have mobility issues they face on a daily basis.

ADA (American's with Disabilities Act), a Federal Law, does not require automatic door opening devices to be installed in any door. While many States have passed their own legislation to require these openers be installed in all public buildings, Florida has chosen to ignore this very real and unnecessary problem.

E - Quality of Life Foundation, Inc.

P.O. Box 4274

Jupiter, FL 33469

The mission of the foundation is to assist the physically challenged population of Palm Beach County by addressing accessibility issues, providing direct solutions, thereby improving its quality of life.

The foundation will also create awareness within the community in regard to this *explosive* issue!

Contact Susan Arena, ASID, at 561-747-5433 for further information. Donations gratefully accepted!
